## Time Off Tracking

### Auto Accrual Schedules

You can design custom names for your time off banks to reflect your business practices. Then, set up rules and individual accrual schedules that can be customized for your entire team, each position, or individual employees.

### Track Daily Absences

Keep Track of your employee absence records with customizable reports.

### Make Vacation Requests a Breeze

Employees can choose to request extended vacations all at once and quickly see how many vacation days they have.

### Manage Remotely

Employees enter their own paid time off requests. Then the manager approves them, all through the site or app.

Reduce your time and headache managing your team with one easy to use app?

 Yes please!
